derate sales. State bonds, Railway mortgages and hak shares are steady. In the small stocks little doing, except in Boston Water Power, which sold at 50 @ 50 1. In Bailway shares a moderate business. Erie upon the Enclish news was rushed up to 64j, but soon fell to 61j, and closed at 61j 262. The sales of Railway shares were small. There is plainly a want of buyers at anything above cur-cent rates, and the bulls will probably be obliged carry their loads all Summer or submit to loss. After the call the market was dull, at the Second Board showed no improvement in prices or demand. Erie was offered at 591, seller 60, withont success. The market closed heavy at the following gaetations: Ohio Certificates, 284 & 284; Canton, 584 & 584; Camberland Coal, 45 x 46; Quicksilver, 51; x 51; Kari-poss Preferred, 23; x 34; New-York Central, 97; x 97; x 97; bie, 62 x 62; Hudson River, 109; x 110; Reading, 109 x 109; Michigan Southern, 79; x 79; Illinois Central Scrip, 1204@1204; Cleveland and Pittsburgh, 834 •834; Cleveland and Toledo, 1044@105; Rock Island, 924 ●\$2}; North-Western, 304 2 304; North-Western Prebrred, 60 2 604; Fort Wayne, 96 2 961.

Exchange is dull, and buyers are asking lower rates. The quotations are: London, prime bankers', 60 days, 101 @ 1092; London, prime bankers', sight, 1101 @ 114; Paris, bankers', long, 5.114; Paris, bankers', short, 5.074; Antwerp, 5.12 | #5.11 |: Swiss, 5.12 | #5.11 |: Hamburg, 37 | 37 |; Amsterdam, 42 |; Frankfort, 42 |; Bremen, 80;

Berlin, 734 @74. Money is offered to stock houses in large sums at 5 per cent, and accounts are made up with much care. In Commercial paper there is a moderate business, and low rates are accepted for prime short bills. The speculative demand for capital is small, and there is no disposition mong stock operators to make large engagements in any

The five per cent funding scheme seems to have passed entirely out of sight under the European complications, which killed off the small vitality the bill had when first born. A long six per cent bond could no doubt be ex-changed at a small premium for about all the compound notes, the temporary loans, and a good many millions of plain legal tenders; and Mr. McCulloch should get to work in this direction under existing laws, or new ones if seeking short employment, be can soon put the affairs of the Treasury in order, and at the same time force the new excessive circulation of the National Banks home. It to argued sgainst the policy of making them redeem, that at would force them by scores into liquidation, and flood the market with bonds held as security for their circulation. This is no objection, but a good reason why the currency should be brought back to soundness. If the Government could by compulsory redemption wind up the banks of circulation, and substitute for their irreemable promises plain legal tenders, and at the same time cancel an equal amount of gold-bearing stocks held se security, it would be a service to the people by giving upon its debt. The gold interest paid the National Banks prop Banks upon bonds held as security for es, is a gratuity the Treasury can ill afford and should now be stopped. The National Bank notes are not as good as legal tender, and are a greater damage to the business of the country than the circulating Treasury notes, into which they should now be exchanged, to save taxation, and for the protection of bill-holders. This policy of depriving the National Banks of their now expossive power to issue circulation, practically irredeemable. is a serious matter, and would bring to grief an army of

plators and traders upon borrowed money, but it would be for the benefit of the people at large, and a long step

The reports that the injunction restraining the Michigan Southern Road from paying a dividend upon the common stock is to be removed is a mistake. The Company has no interest in its removal, and will probably let all the suits about its guaranteed stock go through the courts, if share-holders are determined on litigation. The Company is in and is making improvements in the way of depots, cars and new iron, which will absorb over \$109,000 of earnings of 1856. If the Road is managed for the benefit of its permanent shareholders no dividend from earnings can be prudently made until August, 1867, by which time the Road can from earnings pay its floating debt, and pay for The following gentle line show a decrease of \$1,500.

About the lith of December, 1985, I again went to work 20 the Jusquidee. I had to commence on a mine that hed been abbutdened for two years. I found the tunnels filled my with all kines of rubback, the stapes had essend in the raile and tracts both been form up and corrid off, and the work had established for two years. I found the tunnels filled my with all kines of rubback, the stapes had essend in the raile and tracts both been form up and corrid off, and the work which is a worked in the raile and tracts both been form up and corrid off, and there were then the good to see for the accummodation of workmen. When I again took charge, not one of these source was left. The coal-house and black mints shop had a be recaired before they could be used. Ecorything its less may of tasks to work with I had to have minde. I had charge the last time about four month, during the work to fit time, one day, and it paid at the Bear Valley seam mill from \$120, co. 18 to \$1 tone, one day, and it paid at the Bear Valley seam, mill from \$120, co. 21 50 per tone-so these that hed charge; of the mill said. A had harding for everything it now a work and other before I had to stop the work that I had done up to that time was what miners call "dead work." I had so for any other before I had so top the work that had done up to that time was what miners call "dead work." The west and most troublesome of all was putting in new timbers to secure the old workings. In fact, the greatest portion I had done was dead work. The last rock I took out by order of Mr. Dodge was 10 time of average rock—the same kind of ore that was created at Bear Valley Mill. This rock is soon to be worked by Mussars. Homeward Bound.—The 25th Ohio Vet. Vols., Brevet Brig.-Gen. Nat. Haughton commanding, arrived here yesterday morning on the Flambeau, en route from Charleston, S. C., to Columbus, Ohio, for muster out. The 25th is the last of Ohio's regiments, and probably the oldest volunteer organization now in service. It was organized in May, 1861, of three-months companies, and has remained constannly in service ever since, having shared in the hardest campaigns of the war. After Gettysburg, it was sent to South Carolina, the Regiment then numbering only 72 men, and commanded by a Pires-Lieutenant. It now numbers 25 officers and 28d culisted men. HOMEWARD BOUND .- The 25th Ohio Vet. Vols., FRANKLIN SAVINGS BANK, CORNER OF EIGHTH-AVE. AND FORTY-SECOND ST. INTEREST COMMERCES JULY 1, IS SIX PER CENT. AND FREE OF TAX. BULL'S HEAD, Monday, June 11 .- There are 4,251

bullocks in the sale pens at Forty-fourth-st. to-day, which is over 2,100 in excess of the number here last Monday, and the lower than last Monday, with a very willing disposition upon A. an and station. There is a very true oid proverb that "a men must creep before they can walk." The Board of Healt will find this course much the best way of getting firedy o their feet. The weather to-day, or at least this afferment, like Summer. It will ripen the berries and check demands to beef, particularly when as fat as many of the cattle are to-day. We mad 300 Cherckee stock, distillers feet in Bilinds, some as them "hop fat." These sold at 16c per 18, net. "The Jews muster strong this week. Four men hold 1.442 head, all bought on secondation, and probably all losing money.

There was a light supply of sheep in market this merning, and all sold at 7.27[c, per 18., and some at Sc. Good lambs are worth about 12[a, and poor ones 10c., or say about 20 ib. lambs at \$4.25.

There are 25 carloads of hogs on the market, part of which were held from last week for an advance, and were still held at noon. The others sold at 101.210[c, per 18., which is about ic, per 19. advance upon last Monday. The weather to day is somewhat like Summer.

A large number of gentlemen were elected to membership,
and reports were presented from several departments of medlead science. The annual address was given by D. W. T.
Helmoth of St. Louis.
On the second day of the session there was a general debate
as to the organization of the Institute, and how it could be improved; also as to the basis upon which delegates may be
chosen to future sessions. Various reports were presented,
and papers read and Dr. Reury Turner of London gave an
address explanatory of the status of homeopathy in England.

address explanatory of the status of homeopathy in England. On motion of Dr. Versi of Washington a committee was ap-pointed to prepare an address to homeopathists in Europe, arging upon them the importance of organizing national soci-cities.

The customary Bareans were appointed for the conting year, comprising the subjects of Materia Medica, Clinical Medicine, Surgery, Obstetrics, Statistics, and Medical Ethics. The Committee of Arrangements for the next session consists of Drs. George E. Belcher, Henry M. Scaith, E. M. Kellogr, Henry D. Paine, and Jacob Benkley. The next annual address will be given by Dr. N. F. Cooks of Chicago, with Dr. H. R. Clarke of New-Hedford as alternate. The next session will occur in this city, on the first Wednesday of June, 1867.
